Z,

Kent State: We are waiting on the revised version that Bob had marked up for you to have changed. Did you receive that yet and if so can you forward it to me ASAP via fax or email. We also need the original to sign and send the check in with.

Armstrong study: I know you received the information from him that you needed. Can you please wipe the shit off it and come up with something we can get published that will have impact. We need this done ASAP. Let me know on this one.

UK: Any luck with the European version study proposal?

Thanks.
